

**COME AND
EXPLORE THE
FUTURE OF
WORK
WITH US.**

WELCOME TO THE FUTURE

FutureWork.World is a convergent and exciting peer-to-peer collaborative community where business leaders can explore, learn and exchange ideas and designs for the future of work.

From how the workplace is changing, to how leadership is evolving, we will seek new frontiers together. We will seek to find ideas, inspirations and designs that will help transform how we think and do this thing called work.

CONNECT

CONVERGE

CREATE

CHANGE

OUR PURPOSE

To inspire organisations to purposefully design the future of work by engaging leaders to explore, learn, collaborate, and innovate.

The 'Future of Work' (FoW) refers to the purposeful study and the holistic, integrated design of workplaces, workforces and worktasks across multiple time horizons in the context of business and society.

It is our goal to create a truly one-of-a-kind convergent network, that will aid leaders in making the future of work a reality in their organisations today.

The thematic structure of **FutureWork.World** enables the sharing and application of leading edge and on the edge ideas on key topics that will enhance your own world of work. We aim to provide you with surprising inspirations to design innovation into your own world of work.

A WORKING WORLD THAT WORKS FOR ALL.

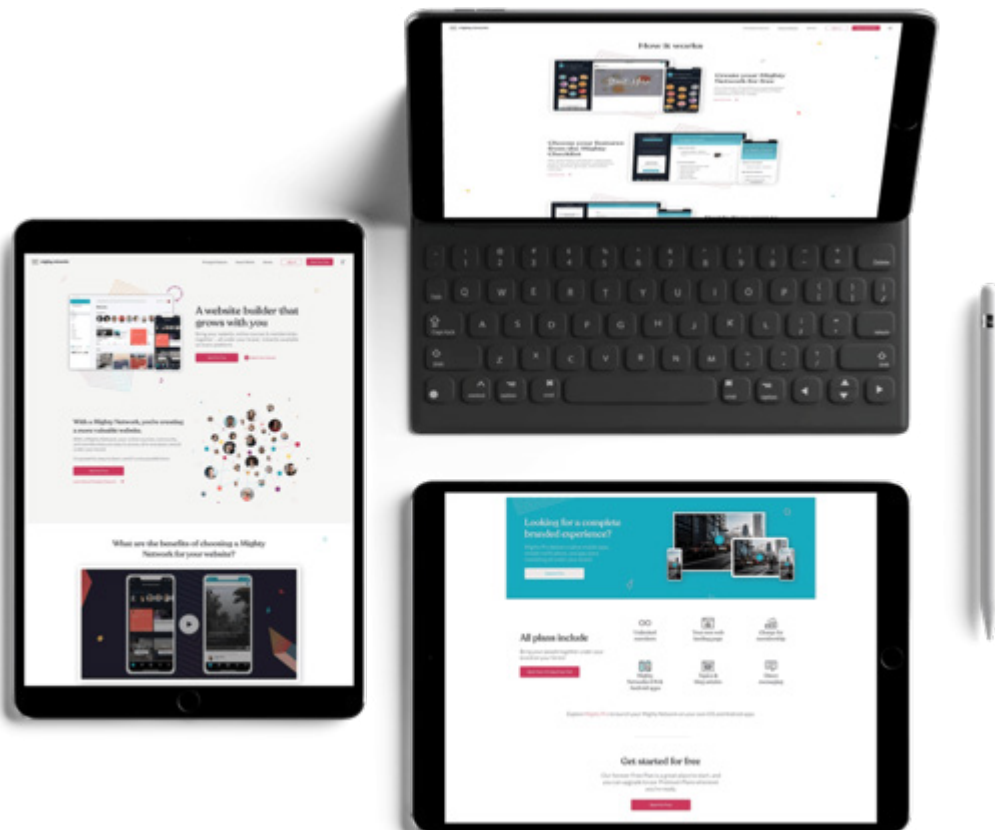

WHO IS FutureWork.World FOR?

FutureWork.World is a unique convergent community for those with a passion for the future of work, and a belief in changing work for the better for all.

FutureWork.World membership is for leaders who are working in organisations that demand to be leaders in their sectors.

Our ideal members are curious and seek to connect with like-minded people with the goal of transforming how work works.

Connecting, converging, co-creating, and enabling change will be facilitated through a collaborative, engaging and sharing peer network.

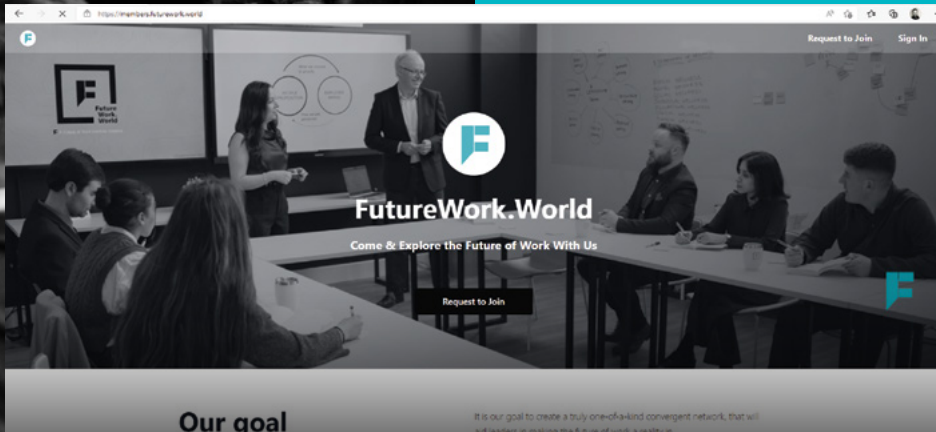

YOUR FutureWork.World COMMUNITY

We recognise the need for a place to share ideas, seek advice, solve problems and contribute to shaping the FoW in your organisation and beyond.

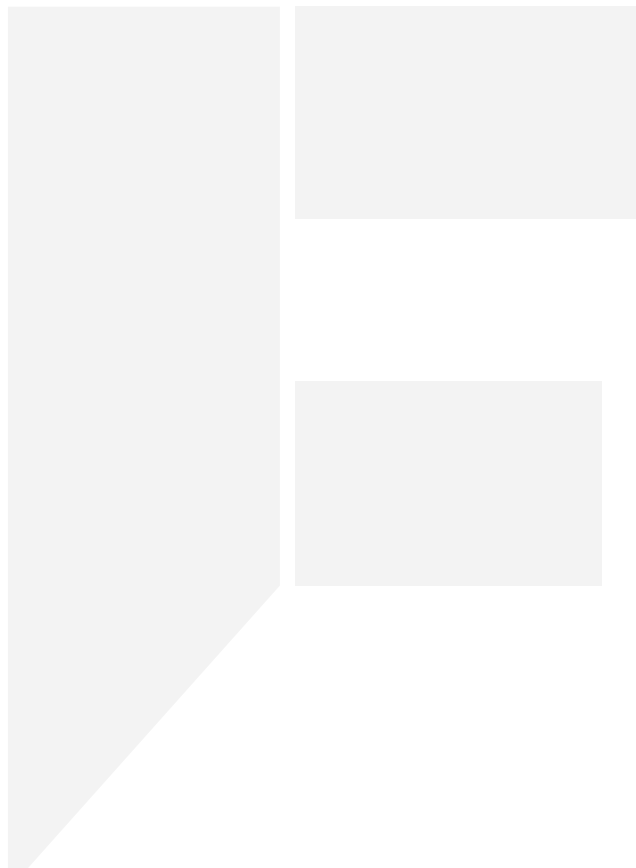

We invite business leaders to join your peers in a convergent and confidential space to explore and collaborate. This peer-to-peer knowledge-sharing network also offers you access to opportunities and collaborations.

We invite the key people in our member organisations to join us as you prepare your business for your version of the FoW. We want to be a key support to talent strategy and inspire you as you direct your efforts and resources in FoW focused areas.

Our carefully curated programme of regular events will bring speakers, content, workshops and providers together in a meaningful and impactful manner.

FutureWork.World MEMBER BENEFITS

Themed Hackathons

Practical deep-dive sessions for groups to explore a key future of work topic including deep level diversity, employee experience, workforce strategies and leadership.

Quarterly Publications

Unique articles and perspectives on the FoW including selected interviews and thought leadership pieces.

Masterclasses

Unique educational experiences on core topics like immersive storytelling, experience design, talent tech, holistic HR, employer brand and self-management.

Insights & Toolkits

Avail of proprietary research and whitepapers from the Future of Work Institute. We will share toolkits and blueprints to help fast-track your success.

Private Community

Meet fellow FoW leaders in a private community with groups sharing best practice at meetings during the year. Build your network and your profile while collaborating on educational and practical projects.

Annual Summit

Global audience for those with a passion for the FoW and transformational workplaces. The summit aims to become the key international conference with special guest speakers and breakout sessions etc.

THEMES 2022-2024

Think about **FutureWork.World** as a massive theme park dedicated to the world of work.

A place we can together explore, learn and exchange ideas and designs for the future of work.
